The Trimline "Days Since" Auto Day Counter with spring return selector switch reset, auto, fast index is designed to be a versatile solution for most automatic 24 hour counter applications. The counter offers easy setup to index to desired value.

2.3 inch (100-115' view) six digit RED numeric display OR 4.0 inch (200' view) four digit RED numeric display. NEMA1 black extruded aluminum with selector switch pre-wired/mounted to the side of the cabinet. Unit should be mounted within reach of switch. Switch access is required for override or resets. Power is 110 Vac at 1 amp.

Switch momentarily moved to left position will reset counter value . Switch spring return will move the switch to auto mode where it will begin and internal timer at zero to begin a new 24 hour count up. Switch momentarily moved to the right position will allow user to fast index up to the desired value for start of auto count.

Counter will increment by one every 24 hours elapsed from the moment the switch is set to auto mode.

The Trimline "Days Since" Auto Day Counter with spring return selector switch reset, auto, fast index is designed to be a versatile solution for most automatic 24 hour counter applications. The counter offers easy setup to index to desired value.

2.3 inch (100-115' view) six digit RED numeric display OR 4.0 inch (200' view) four digit RED numeric display. NEMA1 black extruded aluminum with selector switch pre-wired with 15 foot cable down to a remote abs box. Switch access is required for override or resets. Power is 110 Vac at 1 amp.

Switch momentarily moved to left position will reset counter value . Switch spring return will move the switch to auto mode where it will begin and internal timer at zero to begin a new 24 hour count up. Switch momentarily moved to the right position will allow user to fast index up to the desired value for start of auto count. Memory backup unit will retain last value for up to one week without power. Power loss will require user to run value up to current. Unit does not know how much time has elapsed during power loss. ABS switch box approx. 2.6" x 2.6" x 2.9"

Counter will increment by one every 24 hours elapsed from the moment the switch is set to auto mode.
